

Pre-oiled Foam Filters

Save Time - Ready-to-use

Advanced Cutting Technology

PRE-OILED FOAM FILTERS

FEATURES

- *Ready to install*
- *50% oil by weight*
- *Oiled by centrifuge*
- *Made to OEM specs; same pore count.*
- *Fully reticulated foam*
- *Router cut filter*
- *No filter undercuts*
- *Individually bagged*

BENEFITS

- *Great for over-the-counter sales or repair shop use. Saves time. Hands stay clean.*
- *Exactly the amount of oil needed, as recommended by OEM.*
- *Oil evenly distributed, insures complete coverage.*
- *Meets engines' needs as defined by OEM's.*
- *Full air flow, ensures top engine performance.*
- *Full air flow; some use "hot-wire" method of cutting, which blocks surface pores, limiting air flow.*
- *Better sealing than "hot wire" cut.*
- *Won't pool or release oil, no mess on shelf.*
