

A New Clean Air Standard.

HIGH QUALITY AIR FILTERS FROM OREGON®

Meets or Exceeds OEM Specifications!

- **New softer urethane seal on panel air filters ensures quality sealing** against dust ingestion into the engine. Durometer reading of 18 to 22.
- **Urethane seal on panel air filters resists swelling or hardening** - even in the most severe cutting conditions.
- **Exact manufacturing tolerances** on width, height, and length insure a perfect fit in the air filter canister.
- **Premium filter paper** - prevents particle ingestion - same as the OEM.
- **High paper pleat count extends filter and engine life** - same as the OEM.
- **Packaged in attractive display boxes** - reduces damage in shipment, easier to display and greater customer appeal.
- **12 Month warranty** against defective materials and workmanship
FOUR TIMES THE INDUSTRY STANDARD!
